CONNECTICUT COASTAL ENERGY IMPACT PROGRAM

PREPARED FOR THE STATE DEPARTMENT

OF AGRICULTURE AND

CONNECTICUT STATE OFFICE OF POLICY AND MANAGEMENT

Financial Assistance for this report has been provided by the Coastal Zone Management Act of 1972, as amended and administered by the Office of Ocean and Coastal Resource Management, N.O.A.A., Department of Commerce and the Connecticut State Office of Policy and Management.

Preface

The results of this project are divided into two distinct volumes. Volume I can be considered as the Planners Handbook and is designed to be used for making planning decisions relating to any expansion of energy activities and facilities.

Volume I consists of a series of resource maps which are conveniently organized into ten major sampling regions, extending from Greenwich to Stonington, Connecticut (see Methods Section). The resource maps provide an easy way of quickly evaluating the distribution of sediment types, depths, bottom invertebrates and shellfish populations.

A numerical system for calculating the general ecological value for any of the sampling stations is also described in Volume I.

Volume II contains the specific quantitative data for all of the 413 sampling stations: sediments, water chemistry, benthic grabs, oyster dredge tows and hydraulic clam dredge tows.

This information is of value to marine scientists and will be used to assess the impacts of any future oil spills or other energy related accidents on the natural resources of Long Island Sound.

Erratum

The scientific name

Nucula proxima should be

changed to *Nucula annulata*

throughout the report.

TABLE 426. Macrobenthic Community Structure of Region VII
(Oyster dredge sample) (Number per 2-minute tow)
Volume of Sample: [0.03125] bushel

Station	<26430> <60106>
PHYLUM ANNELIDA	
Sabellaris vulgaris Tubes	p
PHYLUM ARTHROPODA	
Cancer irroratus	1
Pagurus pollicaris	2
PHYLUM MOLLUSCA	
GASTROPODS	
Crepidula plana	p

Cultch condition: 1f

TABLE 427. Macrobenthic Community Structure of Region VII
(Oyster dredge sample) (Number per 2-minute tow)
Volume of Sample: [0.0625] bushel

Station	<26410> <60110>
PHYLUM ANNELIDA	
Sabellaris vulgaris Tubes	p
PHYLUM ARTHROPODA	
Pagurus pollicaris	1
GASTROPODS	
Crepidula fornicata	p
Crepidula plana	p

Cultch condition: hf

TABLE 428. Macrobenthic Community Structure of Region VIII
(Oyster dredge sample) (Number per 2-minute tow)
Volume of Sample: [0] bushel(s)

Station	<26311.4> <44044.2>

Comments:
Dredge came up clean and empty.

TABLE 429. Macrobenthic Community Structure of Region VIII
(Oyster dredge sample) (Number per 2-minute tow)
Volume of Sample: [0] bushel(s)

Station	<26310.8> <44043.0>
Cultch condition:	c

Comments:
Eelgrass found.

TABLE 430. Macrobenthic Community Structure of Region VIII
(Oyster dredge sample) (Number per 2-minute tow)
Volume of Sample: [0] bushel(s)

Station	<26306.8> <44039.3>
PHYLUM ARTHROPODA	
Rhithropanopeus harrisii	1

Comments:
Dredge came up clean and empty; except for the mud crab.

TABLE 431. Macrobenthic Community Structure of Region VIII
(Oyster dredge sample) (Number per 2-minute tow)
Volume of Sample: [0.025] bushel

Station	<26296.3> <44034.2>
PHYLUM ARTHROPODA	
Ampelisca tubes	p
Corophium tubes	p

Comments:
Dredge came up with amphipod tubes only.

TABLE 432. Macrobenthic Community Structure of Region IX
(Oyster dredge sample) (Number per 2-minute tow)
Volume of Sample: [0] bushel(s)

Station	<26288.6> <44023.2>

Comments:
Dredge came up clean and empty.

TABLE 433. Macrobenthic Community Structure of Region IX
(Oyster dredge sample) (Number per 2-minute tow)
Volume of Sample: [0.0625] bushel

Station	<26287.8> <44019.2>
Cultch condition:	c

TABLE 434. Macrobenthic Community Structure of Region IX
(Oyster dredge sample) (Number per 2-minute tow)
Volume of Sample: [0] bushel(s)

Station	<26287.4> <44024.2>
Cultch condition:	c

Comments: Laminaria and Ulva found.

TABLE 435. Macrobenthic Community Structure of Region IX
(Oyster dredge sample) (Number per 2-minute tow)
Volume of Sample: [0] bushel(s)

Station	<26287.4> <44023.0>

Comments:
Dredge came up clean and empty.

TABLE 436. Macrobenthic Community Structure of Region IX
(Oyster dredge sample) (Number per 2-minute tow)
Volume of Sample: [0] bushel(s)

Station	<26286.9> <44022.4>

Comments:
Dredge came up clean and empty.

TABLE 437. Macrobenthic Community Structure of Region IX
(Oyster dredge sample) (Number per 2-minute tow)
Volume of Sample: [0] bushel(s)

Station	<26286.7> <44019.7>

Comments:
One Cerebratulus sp. found.

TABLE 438. Macrobenthic Community Structure of Region IX
(Oyster dredge sample) (Number per 2-minute tow)
Volume of Sample: [0.0625] bushel

Station	<26286.4> <44014.7>
PHYLUM ARTHROPODA	
Rhithropanopeus harrissi	1

Comments:
Dredge came up clean and empty; except for the one mud crab.

TABLE 439. Macrobenthic Community Structure of Region IX
(Oyster dredge sample) (Number per 2-minute tow)
Volume of Sample: [0] bushel

Station	<26284.8> <44016.8>
PHYLUM ARTHROPODA	
Ampelisca tubes	p

Cultch condition: hf
Comments:
Laminaria present.

TABLE 440. Macrobenthic Community Structure of Region IX
(Oyster dredge sample) (Number per 2-minute tow)
Volume of Sample: [0] bushels

Station	<26283.7> <44011.2>
PHYLUM ARTHROPODA	
Ampelisca tubes	p

Comments:
Laminaria present.

TABLE 441. Macrobenthic Community Structure of Region IX
(Oyster dredge sample) (Number per 2-minute tow)
Volume of Sample: [0] bushel(s)

Station	<26283.5> <44009.2>

Comments:
Laminaria present. Nothing else found.

TABLE 442. Macrobenthic Community Structure of Region IX
(Oyster dredge sample) (Number per 2-minute tow)
Volume of Sample: [0] bushels

Station	<26280.6> <44007.6>
PHYLUM MOLLUSCA	
BIVALVES	
Mytilus edulis	1

Comments:
Dredge came up clean and empty except for the one mussel.

TABLE 443. Macrobenthic Community Structure of Region IX
(Oyster dredge sample) (Number per 2-minute tow)
Volume of Sample: [0.0625] bushel

Station	<26277.0> <44003.7>
PHYLUM MOLLUSCA	
BIVALVES	
Mytilus edulis	1

Cultch condition: 1f

TABLE 444. Macrobenthic Community Structure of Region IX
(Oyster dredge sample) (Number per 2-minute tow)
Volume of Sample: [0] bushels

Station	<26276.6> <44001.0>

Comments:
Dredge came up clean and empty.

TABLE 445. Macrobenthic Community Structure of Region IX
(Oyster dredge sample) (Number per 2-minute tow)
Volume of Sample: [0.5] bushel

Station	<26275.4> <44001.2>
PHYLUM MOLLUSCA	
BIVALVES	
Crassostrea virginica	32
Mytilus edulis	7

	Crassostrea virginica
Population size:	32
Mean length (mm):	8.53
